

EDUCATIONAL SCHOLARSHIPS FOR ETHNIC MINORITIES IN NORTH THAILAND

© Boris Loder

OUR VISION

It is our greatest wish that the kind families of the hill tribes in Thailand receive more attention. We hope that we can support a future in which every child has access to education and the freedom to follow a self-determined path in life.

OUR MISSION

For more than ten years, the Dr. Robert Dyckerhoff Foundation has been supporting the school and university education of underprivileged children from the ethnic minorities in the northwest of Thailand.

With our two dormitories, we offer a welcoming home where our scholarship holders can both reside and study. It is a wonderful way of living together.

We are very grateful that with the support of the foundation, over 300 children were able to graduate from school and some even achieved a university degree.

KINDNESS CAN CHANGE THE WORLD

TOGETHER FOR CHANGE

We are a small family founded organisation. It is your generosity and kindness that makes our work possible and provides truly life-changing opportunities for our scholars in Thailand.

If you would like to contribute, we are grateful for any donation, whether large or small. We really appreciate your support and thank you from the bottom of our hearts.
