

KINDNESS CAN CHANGE THE WORLD

BECOME A VOLUNTEER IN NORTH THAILAND

We are always looking for some wonderful humans to work on the ground and bring to life projects that the local community really needs.

DR. ROBERT
DYCKERHOFF
FOUNDATION

**EDUCATIONAL
SCHOLARSHIPS
FOR ETHNIC MINORITIES
IN NORTH THAILAND**

OUR VISION

We hope that through our work we can support a future in which every child has access to education and the freedom to make individual choices and follow a self-determined path in life.

It is our greatest wish that the kind families of the Thai hill tribes receive more attention and support.

OUR MISSION

For more than ten years, the Dr. Robert Dyckerhoff Foundation has been supporting the school and university education of underprivileged children from the ethnic minorities in the northwest of Thailand.

With our two dormitories, we offer a welcoming home where our scholarship holders can both reside and study. It is a wonderful way of living together.

We are very grateful that more than 300 children and young adults have found their way to secondary school and university.

ABOUT US

The Dr. Robert Dyckerhoff Foundation is a small family founded organisation. It is your generosity and kindness that makes our work in Northern Thailand possible and provides truly life-changing opportunities for our scholars.

JOIN US

As a volunteer, you will be immersed in local life. You will work closely together with our team and help to create a positive and safe environment for the students.

You will support our scholars with their homework and tutor them in English. In addition, you will have the opportunity to assist in organising activities and running projects, as well as supporting the foundation with social media activities.
